**My Handwriting Font**

# Welcome...

## Step 1 Fill in My Handwriting Template.

Print "My Handwriting Template" and Guide (if desired). Use a suitable pen (e.g. a black permanent marker of fine or medium thickness) to write the characters. Print them as you would normally write. We don't recommend the use of a ballpoint pen, it is too thin and doesn't give a consistent result. Draw your characters in the cells indicated, making sure to not touch the grid lines.

In the sample above, the top row is designed to have the letters be more uniform. Notice there are little marks on each cell. These will help you write the characters in the right dimensions, and in the best position for each cell. As you can see, most of the characters are placed on the baseline. The small letter "g" goes below the baseline. Capital letters and digits have the same size. The second row in the sample will not have consistent sizes or positioning. Many fonts have a whimsical look and you may choose to not place characters in the proper spacing to achieve that feel.

To help fill in the characters using the right spacing and size, you may want to use the Template Guide. Simply print the Template Guide and place it below your empty Handwriting Template so the guidelines show through the paper.

## Step 2 Scan Completed Template

After you have completed the Template, put the template page as straight as possible on the scanner bed. Scan the template at a 300 dpi resolution. If your characters contain details (e.g. thin strokes) you should use a higher resolution. Save only as jpeg (.jpg). Your font will be named the same as your .jpg is named.

## Step 3 Submit Scanned Template

Email your .jpg to [Fonts@MemoryMixer.com](mailto:Fonts@MemoryMixer.com). Please include your order #, the name for your font and the email address you would like your font sent to. Please allow up to 1 week for delivery. If you have created a font using doodles, you may want to keep your template for quick reference.

If you have any questions, please don't hesitate to email [info@memorymixer.com](mailto:info@memorymixer.com) or call 801.298.1979.

Happy Mixin'!
